**Duration:** 60 mins

**Stops:** None

## DRIVE RULES

- This event is run under a Motorsport Australia permit as a non-competitive event.
- We strongly encourage all drivers have a 5 W UHF Radio with external antenna.
- BMWDCM does not condone and will not tolerate unsafe driving or hooning of any type on any event.
- BMWDCM does not endorse drinking or taking of drugs on or immediately before drive events.
- Drive at your own speed, do not go faster than you feel comfortable – we will regroup regularly.
- Only keep up with the car in front of you when safe to do so and within your comfort speed range.
- We will use radio calls, the “wait for the car behind you” system, and the drive instructions to allow you to follow the route. But if that fails you can make your own way to the next designated stop – but try to let us know that is what you are doing.
- While driving in a group make sure the car behind you sees where you are turning. If it is safe to do so, wait for the car behind you to see you turn. Don't worry, the car in front of you will wait for you at the next turn as you have just done. It is important that we all do this.
- When driving in traffic, try to safely keep up with the car in front of you. Use multiple lanes where appropriate to speed up passage through traffic lights and junctions. We will regroup as required.
- Keep an eye on the car that you have been following and if they turn or pull over, do the same.
- On the open road drive at your own speed, do not go faster than you feel comfortable at, in an attempt to keep up, we will wait and regroup at intervals. If the car behind looks like they want to go faster than you do, let them pass when it is abundantly safe to do so, and you make your intentions clear. A radio call to the car behind is a good idea, and an acknowledgement is just good manners. But do not overtake purely on the basis of a radio call – use your own judgment at all times.
- If you wish to drive in a more leisurely way, please join towards the end of the group and don't feel obliged to keep up.

## START LOCATION
